Summary

What is the importance of the website for business owners, whether they are companies or individuals?

The website allows the formation of a better relationship with customers, because it allows you to send instant messages to them via e-mail, and customers can review products online and leave their comments and opinions, and for that it is important to have a website.

I'm a front end web developer, I'm use

- node.js
- React
- Bootstrap5

I started learning this field in 2022 and I have simulated restaurant websites and some small projects, and I am still learning and developing my skills and experiences in the field of front-end development, back-end development, and problem-solving.
